Owners of the smaller cars can enjoy the same high relative value in Goodyear Tires that gives utmost satisfaction to owners of big, costly motor carriages.

They can take advantage of that tremendous amount of equipment, skill and care employed by Goodyear to build tires of extraordinary worth in the 30 x 3-, 30 x 3½-, and 31 x 4-inch sizes.

They can secure these tires without waiting, despite the enormous demand, because, in addition to its larger sizes, Goodyear builds an average of 20,000 a day in the world's largest tire factory devoted to the three sizes mentioned.

If you own a Ford, Chevrolet, Dort, Maxwell, or any other car using one of these sizes, go to the nearest Goodyear Service Station Dealer for Goodyear Tires and Goodyear Heavy Tourist Tubes.

30x3½ Goodyear Single-Cure Fabric, Anti-Skid Tread \$21.50

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water-proof bag \$4.50

GOOD YEAR

How About Your Corn Crop?

Will your teams be able to do the work? Have they had the proper work out to fit them for the strenuous work they will have to do when the weather opens up?

A Fordson Tractor

will do the work. It will average eight acres in ten hours and if need be you can use it day and night by equipping it with lights.

If there is any doubt in your mind what a Fordson will do all we ask is the opportunity to show you. We will be delivering and demonstrating tractors in several localities as soon as the weather permits; perhaps one of them will be in your neighborhood. Get in touch with us and we will be glad to arrange a demonstration.
